- ☐ Signs, labels and color coding (M)
- ☐ Questions answered live by the person conducting the training (N)

Office-specific topics (PPE locations, sharps containers, evaluation clinic):

Attendees

Name (print)	Job title	Signature	Date completed

Use another copy if more people attend. Keep this record 3 years from the date of the training (29 CFR 1910.1030(h)(2)(ii)) and give it on request to employees, their representatives and OSHA ((h)(3)(ii)). Training is at no cost to employees and during working hours, at initial assignment and within one year of each person's previous training ((g)(2)(i), (ii), (iv)). California (8 CCR 5193(g)(2)(G)11.) adds how to record the incident on the Sharps Injury Log.
